

America School

In the United States primary school, the classroom atmosphere is very active. Children are the main body of the class. In class, discussing is very important. The teacher encourages you to ask questions or show your own opinions. They don't usually ask you to sit well. Instead, they allow you to sit or stand everywhere you like. A game, a speech may be a learning content, the teachers leading the children to naturally learn knowledge, exercise children's ability.

Every class has about 20 students. They have math, English, social study and science. In their schoolbag, there are fruits, books, worksheet and a piece of interaction table with teachers in which teachers record children's behavior at school. Tootles are the awards for children who behave well. They don't need to do much homework but they still have to finish lots of homework even to 11 at night at high grade.

In some schools, students must wear indoor shoes every day. So the students can't fall down. They can keep the schools clean, too. Students can't eat gum, because it is hard to clean.

Every school has a notice board. Let's see one of an America school.
